Streamline the payment experience

Forget your preconceptions -

Payments are innovative, flexible, cost effective, time efficient and secure.

Business owners can now benefit from payments technology in the following ways:

Cash Flow

- Automated reconciliation
- Customised, variable fee structures
- Accuracy in financial projections

Arrears

- Automated debiting and fee collection
- Recurring payments
- Reduction in total arrears

Visibility

- Off the shelf management platforms
- Payment dashboards for control
- Reduce complex, in-house solutions

Labour

- Fewer hours sifting manually through payment data
- Automate reconciliation
- Reduce customer touch points

Customer Experience

- Simple and easy to use online experience
- Automated processes reduces negativity
- Set and forget system retains storers
